

Second Grade Unit 3: The Family

Dear Parents,

Your 2nd grade child is currently learning vocabulary words about the family. Below is a list of these words along with a pronunciation guide. Please help them to review these words daily. A simple way to study would be to have them draw a family tree of a real or fictitious family and then encourage them to label the people. The assessment will have two parts. The first will be a reading portion where the child will read a simple sentence and then have to answer a question. The second part will be a speaking test where the child will have to look at a family tree and name the relationships between family members. If you have questions or concerns please contact me.

Gracias,

Señorita Gremer
