Introduction: A committee of fifteen members representing students, faculty, administration, community members, school council, and an outside consultant met over the course of eight months in 2013 to craft the Strategic Plan document. The committee sought input by reaching out to stakeholder groups using personal contact and survey technology. They researched the work of other school systems, identified the themes for our plan, and collaborated towards a draft. The School Committee reviewed the draft and provided endorsement of the Vision, Mission, and Core Value Statements. We are committed to use the plan as a guide for future decisions.

Vision Statement: The Harvard Public Schools community, dedicated to educational excellence, guides all students to realize their highest potential by balancing academic achievement with personal well-being in the pursuit of individual dreams. The students engage in learning how to access and apply knowledge, think critically and creatively, and communicate effectively. They develop the confidence and ability to understand diverse perspectives, collaborate, and contribute to their local, national, and global communities.

Mission Statement: Our mission is to provide an outstanding educational experience for all students and to help them develop curiosity, perseverance, and social responsibility.

Core Value Statements:

Student Achievement – We believe the Harvard public schools inspire, prepare, and challenge all students toward academic excellence while recognizing that students reach their individual potential in different ways.

Personal Growth – We believe in helping all students attain a balance between academic achievement and physical, emotional, and social well-being, so that they become productive, confident, and caring citizens.

Partnerships – We believe that students are best served when schools, families, and community share a common vision and are committed to open communication, mutual respect, and collaboration.

Resources – We appreciate that the Harvard community provides the necessary resources to best serve our students, and we hold ourselves responsible for the appropriate use of those resources.

School Climate – We believe that the Harvard public schools strive to create a safe and inclusive environment for students, faculty, and staff that values diversity and fosters respect for learning, self, and others.
