*"The Right Choice for Parents and a Real Chance for Children!"*

February 12, 2021

Dear Constellation Schools Families,

Thank you for the prompt selections many of you made to the return to school survey made available on February 10, 2021. The collection of this information is important to each school as we move forward.

As communicated, we phased in our return to school with the Hybrid Learning Program and Virtual Learning Program beginning March 22, 2021. Our families took the opportunity to inform us of their concerns with this new information. We listened to your feedback and reconvened to discuss our options to improve on this model while continuing to support the needs of our staff, families, and students.

We remain committed to providing our families with the safest learning environments possible. Providing the option of the Hybrid Learning for in-person instruction will allow us this opportunity. This also provides our returning students the opportunity to become re-acclimated to their school. We likewise felt it was necessary to restructure our Wednesdays from asynchronous learning to live online instruction for all students. We will continue this format for three weeks (March 22, 2021 – April 9, 2021). *Families who choose to have their child/children remain in our Virtual Learning Program for the duration of the school year can continue to do so under the Virtual Learning Program model.*

Our plan to move forward also finalizes the full time return date to our buildings for families who have a desire for their child/children to be back in the classroom. The return date for these students is **Monday, April 12, 2021.**

We recognize this new information may have an impact on the previous decision made for your family. With full **in person teaching and learning resuming April 12, 2021**, we must offer all of our families the opportunity to reconfirm the Learning Program of their choice. You will receive additional information from your school later today and be provided the opportunity to finalize your choice for the remainder of the school year. We kindly ask you review this new information and submit your learning program choice by Wednesday February 17, 2021.

We appreciate your continued support and cooperation during these unprecedented times. We look forward to having our students back to traditional learning and meeting the needs of our families through whichever learning program they may choose.

Sincerely,

A handwritten signature in blue ink that reads 'Rebecca L. Keeney'.

Rebecca L. Keeney
