*The Right Choice for Parents and a Real Chance for Children!*

## **5.1070.1 Use of Face Masks/Coverings**

The health and safety of students, staff, and volunteers is paramount to the School. For this reason, and in light of the COVID-19 pandemic, and guidance from the Ohio Department of Health (“ODH”), the Ohio Department of Education (“ODE”), and the Center for Disease Control (“CDC”), effective January 1, 2022, the School will comply with this policy for the remainder of the 2021-2022 school year.

The School will follow the mandates and requirements set forth by the federal, state, and local governments, the CDC, Ohio Governor, ODH, local county health department, ODE, and other applicable entities (“Directing Entities”) as it relates to the protecting the health of students. If any of these Directing Entities, or the School administration in its discretion, requires staff, students, and/or visitors to wear face masks/coverings while attending school, reporting to work at a school, or visiting a school, the School will follow and enforce such directives. If any part of this policy conflicts with applicable mandates, restrictions, or requirements from these Directing Entities, the School will comply with the applicable mandate, restriction, or requirement.

Except as provided herein, all students, faculty, staff, and volunteers, regardless of vaccination status, are strongly recommended to wear face masks/coverings at all times when:

- In any indoor location including, but not limited to, classrooms, gymnasiums, offices, locker rooms, hallways, cafeteria, and/or locker bays;
- In crowded outdoor settings or during activities on school property that involve sustained close contact with others who are not members of their household;
- Waiting for a school bus outdoors and unable to maintain a sustained distance of six feet or more from individuals who are not members of their household; or
- Riding a school bus.

Should there be a significant increase in COVID-19 cases within the school community, which shall be determined by the School administration, the School administration shall have the authority to require face masks/coverings at all times in the foregoing situations and in accordance with this policy.

To the extent that the School provides transportation services for its students, students shall be required to wear face masks/coverings while being transported on school buses. If a student receives transportation services through a school district transportation provider that requires face masks/coverings, the School will follow and enforce such directives, to the extent permitted by law and state and federal guidance.

Visitors over the age of two (2) will also be strongly recommended to wear a face mask/covering while in any indoor location on the school’s property, and while outdoors on school property and unable to consistently maintain a distance of six feet or more from individuals who are not members of their household.

Direct contacts\* who were exposed in the school setting or during school-related activities, regardless of vaccination or masking status, may remain in the classroom environment during the fourteen (14) days after their last date of exposure, if they: 1) wear a face mask/covering for fourteen (14) days after their last date

of exposure; 2) self-monitor, or parent-monitor for symptoms of COVID-19, and 3) isolate and get tested if they start to experience symptoms associated with COVID-19 (regardless of level of severity). However, these procedures may be discontinued and the individual may return to the classroom environment after seven (7) days if the individual does not develop symptoms and has a negative COVID-19 test\*\* between days five (5) and seven (7).

Asymptomatic direct contacts who were exposed in the school setting or during school-related activities, regardless of vaccination or masking status, may continue to participate in extracurricular activities, if they: 1) wear a mask when able (this includes: transportation; locker rooms; sitting/standing on the sidelines; and anytime the mask will not interfere with breathing, the activity, or create a safety hazard), and 2) follow ODH “Test to Play” guidelines.

In implementing this policy, consideration should be given for the age and developmental level of the child and the physical situation the child is in at that moment. Face masks/coverings are most essential in times when physical distancing is difficult.

At minimum, face masks/coverings must:

- Cover an individual’s mouth, nose, and chin.
- Bandanas are not permitted.

In addition, it is strongly recommended that face masks/coverings:

- Fit snugly against the side of the face so there are no gaps;
- Not create difficulty breathing while worn; and
- Be held secure through either a tie, elastic, etc. to prevent slipping.

Face masks/coverings shall not include masks designed to be worn for costume purposes, and all face masks/coverings shall meet the requirements of the appropriate dress code policies and code of conduct.

Exemptions. The recommendation or any requirement to wear a face mask/covering does not apply when:

- The individual has a medical condition including respiratory conditions that restricts breathing, mental health conditions, or a disability that contraindicates the wearing of a face mask/covering;
- The individual is communicating or seeking to communicate with someone who is hearing impaired or has another disability, where an accommodation is appropriate or necessary;
- The individual is actively participating in outdoor play, recess and/or physical education activity—unless in crowded outdoor settings or during activities that involves sustained close contact with others;
- The individual is actively participating in outdoor athletic practice, scrimmage, or competition, or indoor sports in which the mask may become a hazard;
- The individual is seated and actively consuming food or beverage;
- Where students and staff can maintain distancing of at least six feet and removal of the face mask/covering is necessary for instructional purposes, including instruction in foreign language, English language for non-native speakers, and other subjects where wearing a face mask/covering would prohibit participation in normal classroom activities, such as playing an instrument;
- Students are able to maintain a distance of six feet or more and a mask break is deemed necessary by the educator supervising the educational setting;
- The individual is alone in an enclosed space, such as an office;
- When an established sincerely held religious requirement exists that does not permit a face

mask/covering; or

- When wearing a mask would create a risk to workplace health, safety, or job duty, as determined by relevant workplace safety guidelines or federal regulations.

If face masks/coverings are required:

The School Principal or his/her designee shall have the authority to determine if and when masks may be temporarily removed pursuant to an exemption in consultation with local health authorities and state and federal guidance.

Face shields that wrap around the face and extend below the chin can be considered as an alternative, in the sole discretion of the School, where an exemption applies.

Exemptions will be considered on a case-by-case basis. If any of the above exemptions are applicable, a request for such exemption must be submitted in writing to the Human Resource Director and the School Nurse Program Coordinator, or in the case of a student, to the School Principal and his/her designee, the School Nurse Program Coordinator and a decision on the request will be provided in writing by the School. An individual may, on a case-by-case basis, be required to wear a face shield or other face mask/covering as appropriate for an accommodation of this face mask/covering requirement. The School may also discuss other possible accommodations for the student or staff member. Such discussion shall follow applicable law and School policies and procedures for requests for accommodation, including but not limited to Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act.

Any school nurse or staff member who cares for individuals with COVID-19 symptoms must use appropriate personal protective equipment (“PPE”), provided by the School, in accordance with Occupational Safety and Health Administration (“OSHA”) or Public Employment Risk Reduction Program (“PERRP”) standards\*\*\*.

If face masks/coverings are required, and no exemption has been applied, students and/or staff who violate this policy shall be subject to disciplinary action in accordance with the applicable Student Code of Conduct/Student Discipline Code, staff handbook, and in accordance with policies of the School.

\*Direct contacts for COVID-19 are those individuals who are identified as being directly exposed to COVID-19 by the positive case. Remember, COVID-19 is a respiratory virus and does not require physical contact to spread. It is spread through sneezing, coughing, talking, and breathing. These factors should be considered when determining level of exposure and direct contacts. Best practice for distancing is three (3) feet with everyone masked, six (6) feet if the individual is not masked.

\*\*The tests referenced above are SARS-CoV-2 viral (PCR or antigen) tests. They should be proctored/observed by someone and cannot be an over the counter, at-home test that was self-administered without a proctor.

\*\*\*Note regarding this policy: The Board shall comply with PERRP and OSHA requirements for all Board employees. However, School staff members employed by a management company are subject only to OSHA requirements and are not subject to PERRP requirements provided above.
